SUBJECT INDEX, VOLUME 125

<i>Abies amabilis</i> , age structure	331	carnivorous plant traps	55
Algae, effect of tuft-weaving midges	275	disturbance effects on <i>Penstemon</i>	150
Amphibians, breeding immigration of wood frog	269	drought effect on old field	125
habitat selection in <i>Rana</i>	259	forest of Shawnee Hills	294
<i>Aphthargelia symphoricarpi</i> , ant interaction	29	nitrogen effect on <i>Artemisia</i> and <i>Stipa</i>	104
Appalachian Mountains, changes in red spruce	340	pitcher plant capture of insects	1
<i>Argia moesta</i> , swimming speed	240	pollination of milkweed	18
Arkansas, biochemical evidence for changes in		productivity of creosotebush	310
heterozygosity in <i>Magickada</i>	213	<i>Epilobium septentrionale</i> and <i>E. canum</i> , effects of	
Arizona, grasshopper response to fire	162	pollen-load size	348
<i>Artemisia tridentata</i> , response to N	104	<i>Etheostoma microperca</i> , life history	87
<i>Asclepias syriaca</i> , pollination by insects	18	<i>E. nigrum</i> reproduction	180
Behavior, arboreal foraging of woodchuck	372	Evolution, affinities in <i>Liatris</i>	323
social organization and diversification	126	biochemical evidence for changes in	
California, effects of pollen-load size on		heterozygosity in <i>Magickada</i>	213
<i>Epilobium</i>	348	crossing relationships of <i>Mimulus</i>	368
effects of tuft-weaving midges on filamentous		<i>Fallicambarus fodiens</i> , ecology, reproduction and	
algae	275	growth	75
<i>Canis latrans</i> , predator on marmots	135	Fish, johnny darter reproduction	180
<i>Chaetogaster limnaii</i> , population dynamics	195	least darter life history	87
<i>Chrysemys picta</i> , growth, survivorship and		leopard darter life history	173
longevity	245	Florida, escape of insects from carnivorous plants	55
<i>Cladophora glomerata</i> , effects of tuft-weaving		foraging site preference of rodents	187
midges	275	<i>Formica fusca</i> , aphid interaction	29
Colorado, coyote predation on marmots	135	<i>Geomys bursarius</i> , effects on <i>Penstemon</i>	150
Connecticut, arboreal foraging of woodchuck	372	Georgia, effects of spider predation on pollination	
<i>Coptotermes formosanus</i> , foraging phenology	222	of Queen Anne's lace	364
<i>Cynomys gunnisoni</i> , prey of raptors	140	<i>Hadenococcus subterraneus</i> , reproduction	231
<i>Daucus carota</i> , effects of spider predation on		<i>Heliosoma anceps</i> , effect on a predatory snail	195
pollination	364	Illinois, forests of Shawnee Hills	294
Ecology, animal, ant-aphid interaction	29	fox squirrel growth	168
arboreal foraging of woodchuck	372	Indiana, sex ratio of parasitoid wasp	10
arthropods of sand plain grasslands	206	Insects, ant-aphid interaction	29
bioenergetics of golden mouse	360	biochemical evidence for changes in	
breeding immigration of wood frog	269	heterozygosity	213
coyote predation on marmots	135	cavernicolous cricket reproduction in	
dipteran collection methods	356	<i>Magickada</i>	221
emergence of stoneflies	47	dipteran collection methods	356
escape of insects from carnivorous plants	55	effect of caudal lamellae loss on damselfly	240
foraging site preference of rodents	180	effects of disturbance in sand plain grasslands	206
growth and survivorship of painted turtle	245	emergence of stoneflies	47
habitat selection in <i>Rana</i>	259	escape from carnivorous plants	55
herbivore effect on arthropods	37	genetic dominance of 13-year cicada	63
insect pollination of milkweed	18	grasshopper response to wildfire	162
insect prey of pitcher plant	1	pollination of milkweed	18
johnny darter reproduction	180	prey of pitcher plant	1
least darter life history	87	sex ratio of parasitoid wasp	10
leopard darter life history	173	spider predation on pollinators of Queen	
productivity of arthropods on creosotebush	310	Anne's lace	364
termite foraging	222	termite foraging	222
tuft-weaving midges on algae	275	tuft-weaving midges on algae	275
web-orientation of orb-weaving spider	286	Invertebrates, other than insects, arthropod	
Ecology, plant, age structure of <i>Abies amabilis</i>	331	productivity on creosotebush	310

- burrowing crayfish ecology 75
 response to disturbance in sand plain
 grasslands 206
 response to mammals 37
 spider predation on pollinators of Queen
 Anne's lace 364
 web orientation of orb-weaving spider 286
- Kansas, arthropod response to mammals 37
 Kentucky, cavernicolous cricket reproduction 231
- Larrea tridentata*, productivity 310
Liatris cokeri and *L. graminifolia*, affinities 323
 Louisiana, termite foraging 222
- Magicicada* spp., genetic dominance 13-year life
 cycle 63
 M. tredecassini, biochemical evidence for
 changes in heterozygosity 213
- Maine, pollination of milkweed 18
 Mammals, bioenergetics of golden mouse 360
 foraging site preference 187
 foraging of woodchuck 372
 fox squirrel growth 168
 pocket gopher effects on *Penstemon* 150
 prairie dog decimated by plague 140
- Manitoba, emergence of stoneflies 47
Marmota flaviventris, prey of coyotes 135
M. monax arboreal foraging 372
- Massachusetts, arthropods of sand plain
 grasslands 206
 Michigan, crossing relationships of *Mimulus* 368
 growth and survivorship of painted turtle 245
 prey of pitcher plant 1
- Microtus ochrogaster*, interaction with arthropods 37
Mimulus glabratus, crossing relationships 368
- Minnesota, least darter life history 87
 effects of disturbance on *Penstemon* 150
 Mississippi, breeding immigration of wood frog 269
 johnny darter reproduction 180
- Nephila clavipes*, web orientation 286
- New Mexico, creosotebush and arthropod
 production 310
 raptors prey on prairie dog 140
- Ochrotomys nuttalli*, bioenergetics on sumac seed 360
 Ohio, bioenergetic of golden mouse 360
 burrowing crayfish ecology 75
 drought effects on old field 125
 Oklahoma, life history of leopard darter 173
 Ontario, habitat selection in *Rana* 259
 Oregon, age structure of *Abies amabilis* 331
 response of *Artemisia* and *Stipa* to N 104
- Parasites, host size effect on parasitoid wasp 10
 plague on prairie dog 125
 effect of trematode on a predatory snail 195
Penstemon grandiflorus, effects of pocket gophers 150
Percina pantherina, life history 173
 Phenology, termite foraging 222
Picea rubens, in Appalachians 340
 Predation, coyotes on marmots 125
 insect prey of pitcher plant 1
 raptors on prairie dog 125
 spider on pollinating insects of Queen Anne's
 lace 364
 Productivity, creosotebush and arthropods 310
Pseudochironomus richardsoni, effects on
 filamentous algae 275
- Rana pipiens* and *R. sylvatica*, habitat selection .. 259
 R. sylvatica, breeding immigration 269
 Reproduction, age structure in *Abies amabilis* 331
 cavernicolous cricket 231
 effects of pollen-load size in *Epilobium* 348
 johnny darter 180
 pollination of milkweed 18
- Reptiles, growth and survivorship of painted
 turtle 245
- Rhus typhina*, food of golden mouse 360
- Sarracenia purpurea*, dipteran collection methods 356
 insect prey 1
Sciurus niger, growth 168
Spalangia cameroni, sex ratio 10
Stipa thurberiana, response to N 104
- Texas, web orientation of orb-weaving spider ... 286
- Washington, ant-aphid interaction 29
